

Fanwood Soccer Club

presents...

2007 FANWOOD SOCCER CAMP

OUR PHILOSOPHY:

Everyday more and more children begin to play soccer, and everyday they are told to kick the ball as hard and as far as they can. This is the way that lots of sports are played, but not soccer. In this sport, young players must first develop their individual skills in order to be able to control a soccer ball. At the Fanwood Soccer Camp, we believe that these techniques are the most important skills a developing player needs and we will spend time making sure that our campers are exposed to, and have a chance to apply a great of variety them.

The coaches from FSC have been coaching young children for a long time. Our staff consists of both coaches and professional educators. We will also have some current SPFHHS players and even some SPFHHS graduates who have continued to play at the collegiate level. In addition, we will use some younger players that we have coached who can now pass that knowledge on to our campers. Please go to www.fanwoodsoccercamp.com for more information on our coaching staff.
